Questions

Why are you collecting \$5 for VOICe for parking that use to be free? VOICe is a very important nonprofit for the Cranberry area providing a very important service. Many people are not aware of this group. They recently had cut back in funding by private and government. Rather than seeing any cutback in this service, we came up with this idea to collect some donations in order to make up for this revenue loss. The parking donation seems to be a good solution.

Why should I have to pay for something I had for free? Well in the past it was not free as 12 to 15 Twp (summer) employees were involved in parking. This year it will be handled by volunteers. We are saving your tax dollars. But the main reason is we need to replace \$7500 of funding loss to VOICe. If we don't do it, who will.

I am still not happy, who do I talk to? Please send all complaints to the CTCC Community Days Chairman via brucemazzoni@zoominternet.net
